COOL STUFF IN

DENVER

Visit all five locations on our full day tour!

NewStripe

Get ready to roll up your sleeves and have fun! Join us to visit NewStripe a leading North American manufacturer of aerosol can disposal, recycling products, and equipment. NewStripe has a variety of products and services including pavement and floor striping, athletic field lining and marking, and industrial waste crushing and compacting.

Colorado Medical Waste

Yes! Medical waste volumes can be reduced up to 90% when it's shredded into "confetti" and treated with ozone. During our tour to Colorado Medical Waste we are going to learn about the ozone processing technology and how it contributes to reducing the carbon footprint from medical waste generation.

Medicine Man

We will take you to a premier cannabis facility to see the production process and some of the sub-products made. There are many things to learn regarding properly handling waste containing cannabis. This visit is an excellent opportunity to understand the different waste streams in the cannabis industry.

GreenSheen

A colorful story! Kevin Callahan, founder of GreenSheen, has created a paint company that renews and recycles water-based paint products. For the last six years, the company has been diverting over 4 million pounds of paint from landfills and transforming it into premium quality architectural paint sold to businesses and residents.

Great Divide Brewing

Brewers don't only brew beer, but great people with talent and ideas! Great Divide Brewing employees found financial and environmental benefits in recycling and reducing waste and other green practices. Learn how a business can incorporate waste reduction techniques to minimize production cost and the importance of educating their customer to achieve the company's sustainability goals.
