National Conference Viewing

- Discussion surrounding gathering to view the National Conference as a group.
 - Chapter members would register for the National Conference and attend a group viewing at a determined location.
 - Hopefully create an opportunity for some Chapter Members to join the viewing virtually.
 - Bill and Dustin will work on an email/survey to gauge interest and solicit for scholarship requests.
 - Possibility of adding an additional scholarship this year since very little Chapter Funds were spent during the last year and a half. Potentially using an additional scholarship as a “prize” to solicit new members.

Fall Workshop

- Get back on track holding fall workshops later in the year when programs have slowed down.
- Possibly viewing a session or two from the national conference together.
- Also need to see where the interest level is for meeting in person vs. virtually.
