## OUR MISSION

The North American Hazardous Materials Management Association (NAHMMA) is a non-profit, membership-based association of individuals, businesses, government officials, academia, and non-profit organizations dedicated to pollution prevention and reducing the hazardous components entering municipal solid waste streams from households, small businesses and other entities.

### We Promote And Encourage:

- Product reformulation
- Development and use of less or non-hazardous products, constituents, processes, and methods
- Collection of products and materials that contain hazardous components for reuse, recycling or hazardous materials management.

### We Do This By:

- Fostering education, communication and informational exchanges
- Advocate for the development of sound policies and cost effective strategies
- Recognizing exemplary people, programs, policies, and practices
- Providing professional development opportunities.
